PROFILE

Fourth-year BS Computer Science student and frontend developer focused on building thoughtful, responsive web experiences. Experienced with Next.js, React, TypeScript, Supabase, PostgreSQL, UI/UX design, and AI-assisted development across competition, e-commerce, client portfolio, and civic-information products.

EXPERIENCE

Front-end AI Engineering Intern | FlyRank AI Aug 2026 – Present

- Building practical, AI-integrated web applications using Tailwind CSS, modern frontend frameworks, and template languages.
- Developing pixel-perfect, responsive interfaces for personal portfolios and e-commerce platforms including Shopify and Shoptline.

SELECTED PROJECTS

MathWiz | Next.js, TypeScript, Supabase, PostgreSQL

- Co-developed the frontend for an online math competition platform with reusable problem banks and automated scoring.
- Implemented live performance views and anti-cheat tab-switch integrity logs.

Decants ni Bro | Next.js, TypeScript, Tailwind CSS, Supabase

- Built a responsive e-commerce catalog and admin dashboard for a perfume-decanting business.
- Implemented inventory management, sales tracking, and real-time product availability views.

Mahaplag Archive | Next.js, React, Python, GIS, Supabase

- Created a civic digital archive centralizing local history, public records, and biodiversity data.
- Integrated interactive GIS mapping for flood, landslide, and hazard exploration across 28 barangays.

Tattoo Site Portfolio | Next.js, React, TypeScript, Tailwind CSS

- Developed a sketchbook-inspired portfolio featuring tactile visual storytelling and responsive navigation.
- Integrated an organized tattoo archive, custom section bookmarks, and booking functionality.

EDUCATION

Bachelor of Science in Computer Science *Aug 2023 – Aug 2027*

Visayas State University | Baybay City, Leyte

- Fourth-year student focused on software development, frontend engineering, and artificial intelligence.

TECHNICAL SKILLS

Languages	TypeScript, JavaScript, Python, C, C++
Frontend	React, Next.js, Tailwind CSS, shadcn/ui, Three.js
Backend & Data	Supabase, Node.js, PostgreSQL, GIS
Tools & Design	GitHub, Docker, Figma, Google Stitch, Codex, Antigravity
