

Jaaseia Gian R. Abenoja

Frontend Developer | Computer Science Student

jaaseiacocabenoja@gmail.com | [linkedin.com/in/jaaseia](https://www.linkedin.com/in/jaaseia) | github.com/jaaseiadev | Philippines

PROFILE

Fourth-year BS Computer Science student and frontend developer focused on building thoughtful, responsive web experiences. Experienced with Next.js, React, TypeScript, Supabase, PostgreSQL, UI/UX design, and AI-assisted development across competition, e-commerce, client portfolio, and civic-information products.

TECHNICAL SKILLS

Languages	TypeScript, JavaScript, Python, C, C++
Frontend	React, Next.js, Tailwind CSS, shadcn/ui, Three.js
Backend & Data	Supabase, Node.js, PostgreSQL, GIS
Tools & Design	GitHub, Docker, Figma, Google Stitch, Codex, Antigravity

EXPERIENCE

Front-end AI Engineering Intern FlyRank AI	Remote, Philippines Aug 2026 - Present
--	--

SELECTED PROJECTS

- MathWiz | Frontend & UI/UX | Next.js, TypeScript, Supabase, PostgreSQL** [Live](#) | [GitHub](#)
 - Built the frontend experience and UI/UX with a three-person team for an online mathematics competition platform serving Mathletes, coaches, and administrators.
 - Supported reusable problem banks, team and open competition modes, automated scoring, live performance views, and tab-switch integrity logs.
- Decants ni Bro | Next.js, TypeScript, Tailwind CSS, Supabase** [Live](#) | [GitHub](#)
 - Developed the official web platform for a real perfume-decanting business, combining a responsive customer catalog with an administrative dashboard.
 - Implemented product availability and pricing views plus inventory management, sales tracking, and business statistics.
- Mahaplag Archive | Next.js, React, Python, GIS, Supabase** [Live](#) | [GitHub](#)
 - Created a civic digital archive that organizes local history, research, public records, biodiversity references, community stories, and officials in one accessible resource.
 - Built interactive coverage of Mahaplag's 28 barangays with GIS-based flood, landslide, and hazard-map exploration.
- Tattoo Site Portfolio | Next.js, React, TypeScript, Tailwind CSS** [Live](#) | [GitHub](#)
 - Designed and built a custom, sketchbook-inspired portfolio for tattoo artist Emir Casil Cortez, featuring tactile visual storytelling and responsive navigation.
 - Integrated the artist profile, selected tattoo archive, colored section bookmarks, and booking information into one cohesive experience.

EDUCATION

- Bachelor of Science in Computer Science | Visayas State University** Baybay City, Leyte | Aug 2023 - Aug 2027
 - Fourth-year student focused on software development, frontend engineering, and artificial intelligence.
- Computer Programming Training | ICOT-P E2PS** Philippines | Sep 2022 - Apr 2023
 - Studied programming and computational problem-solving using JavaScript and HTML.
